

“Henshaws services are empowering – they have given me dignity, independence, choices and improved my quality of life.”

## Sight loss in Oldham

### Prevention

In Oldham 2.6% of the population live with sight loss – that is 5,900 people in 2015 which is set to rise to 8,590 people by 2030.

Oldham have a number of key risk factors causing a rise in people with sight loss:

**Over 50% of sight loss can be prevented. Let's work together to prevent future sight loss.**

The direct cost of vision related problems in Oldham is over £10 million. This is £46.39 per person, which means that Oldham is spending more than the £42.84 per person average cost in England.

## How we can help Oldham CCG

Henshaws Pathway to Independence is our person-centred model of service delivery that supports people to develop independence and resilience. Through this we can help you achieve your priorities.

Your priority:	How we can help:
Integrating mental health into all health and social care services	Mental health and well-being solutions are embedded into all elements of our pathway to independence
Preventing and managing long-term conditions	We work with partners to integrate sight loss prevention and cost effective management of long-term conditions into health and social care programmes
Empowering patients to increase self-care	We empower people through our Pathway to Independence, building independence, confidence and resilience
Engaging diverse communities	We deliver our services via a community outreach model – creating more community hubs so we can offer programmes of specialist bespoke support

**Commission us to work with you to reduce your costs and improve services for the growing number of people living with sight loss in Oldham.**

# pathway to independence

Enabling people of all ages living with sight loss and a range of other disabilities to make informed choices about their future
