

Henshaws charter for gifts in will

1. We recognise you will want to provide for your loved ones first. If you also include a gift to Henshaws in your will, we encourage you to discuss this with your closest family or loved ones to let them know.
2. We will always respect your privacy. If you want to know more about Henshaws to inform any decisions you make, we are happy to help, but we will not ask you questions about your estate or other beneficiaries of your will.
3. We will be guided by you. Including a gift to a charity in your will is your choice to make in your own time. We promise never to put pressure on you.
4. We will treat any information you provide us with, or any conversations we have, as confidential.
5. A gift in your will is a very special donation which requires thought and planning. We promise to spend your donation with thought and consideration so that it is used carefully and cost effectively.
6. If you choose to include Henshaws in your will we hope that you will inform us as this will provide us with an opportunity to say thank you.
7. Gifts in wills are about thinking ahead and making plans for what happens after our death. We hope all our legacy supporters will lead long, happy, healthy, and independent lives.
