About

Fire Drills:

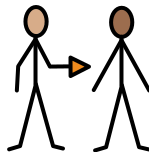

A fire drill is a loud alarm that

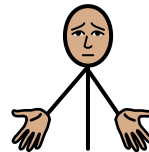

sounds

when

you

need

to

evacuate

incase of a

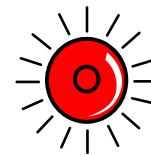

fire

or

threat.

The

alarm

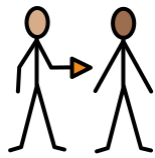

is

there to

warn

you,

+

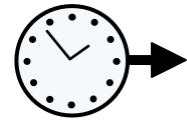

and

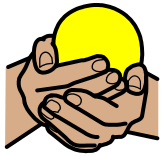

fire

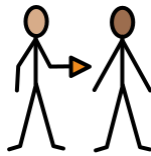

marshals

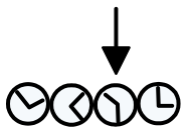

will

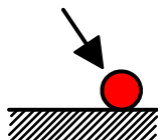

protect

you.

Sometimes

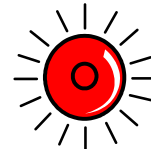

there

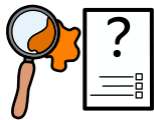

might

be a

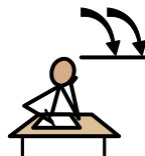

fire alarm

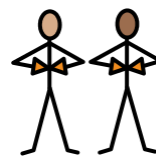

test

or

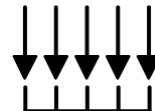

practice

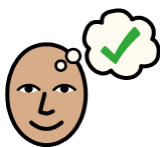

so

we

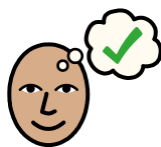

all

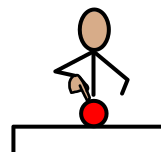

know

+

and

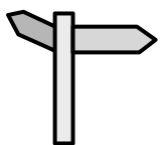

understand

what

to do,

where

to go

+

and

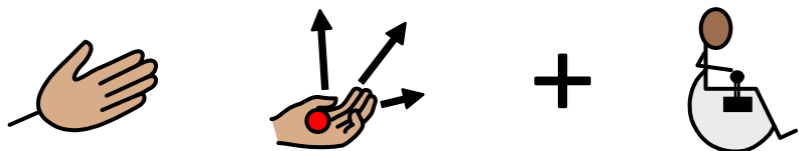

?

how

to

keep safe.

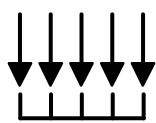

Support Available and PEEPs:

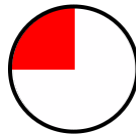

Accessible exits for mobility needs and

ear defenders to help with noise.

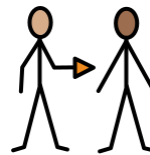

Every

Artmaker

including

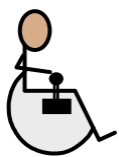

you

has
